What is the aim of this course?

The aim of the course is to promote safe and competent use of diagnostic ultrasound in visualising and interpreting basic gynaecology and early pregnancy problems. We also intend to help extending knowledge in techniques and principles of advanced ultrasound in

gynaecology and infertility. This intensive course is structured to give both theoretical and practical component with incorporating lectures with videos and pictures.

Who should attend this course?

The Gynaecology ultrasound course is aimed at health professionals who are working in the area of gynaecological ultrasound including O&G Doctors, Sonographers, Fertility nurses and Gynae nurses with an interest in ultrasound.

Registration Fees:

The registration fees are £350 for a consultant, £250 for specialist registrar and £200 for a nurse/radiographer.
